GIFTING FOR THE CURIOUS

CHRISTMAS HAMPER 2014

REMARKABLE CONNECTIONS

Granted a Royal Charter by Queen Elizabeth I in 1600, The East India Company was founded to explore the mysteries of the East. In the process it mapped trade routes, discovered exotic goods and established trading ports which would grow into the cities of Singapore, Hong Kong and Mumbai.

It changed customs, tastes and ways of thinking, influencing the very fabric of our lives today. London was the centre, a vast global warehouse stocked with treasures from around the world. Precious cargos of fine teas, coffees, spices and silks from far off lands were available in the same place for the first time.

Unexpected and often remarkable connections of ingredients, flavours and materials were suddenly possible, enriching and revitalising everyday life. A truly global endeavour, The East India Company connected the East and West through tastes, cultures and ideas. It is this pioneering spirit from which we draw inspiration today.

We hope to improve our present by knowing our past and learn from others' cultures and customs, connecting them with our own. Through the exquisite flavours, materials and skilled craft of artisans, we hope to share our passion with you and invite you to become part of the journey.

CURIOUS BY NATURE

Gifting For The Curious encapsulates the adventurous, curious spirit that prompted the first East India Company fleet to set sail in 1600. Upon their return The East India Company provided Britain with a bountiful gift of exotic ingredients and a new palette of flavours - from sugars and spices, to teas, coffees and delectable delights.

This Christmas be inspired by your curiosity and discover the luxurious range that we have to offer.

Whether you are looking to delight a friend, thank a special client, or surprise a loved one, you can rest assured that you'll find them the perfect present at The East India Company this festive season.
